PSC APPROVES WATER TERRITORIAL AGREEMENT

JEFFERSON CITY—The Missouri Public Service Commission has approved a water territorial agreement between Consolidated Public Water Supply District No. 1 of Clark County and the City of Canton which designates the areas of each supplier within part of Lewis County.

The joint application stated the territorial agreement would enable each supplier to avoid wasteful duplication of services and undue cost to their customers. The agreement does not presently change the water service supplier for any current customer.

“Having considered the Joint Application and Unanimous Stipulation and Agreement, the Commission concludes that the designation of water service areas is in the public interest,” the Commission’s order said. “Furthermore, the Commission determines that the territorial agreement between the City of Canton and Consolidated Public Water Supply District No. 1 of Clark County, Missouri, is in the public interest and should be approved.”

The City of Canton owns and operates a water system within its boundaries in Lewis County. Consolidated Public Water Supply District No. 1 of Clark County provides water service to customers located within the District’s water service area in Clark, Lewis, Knox and Scotland Counties.
